

Marinade DAO configuration summary (shared)

Marinade DAO parameters

- Realm: `899YG3yk4F66ZgbNWLHriZHTXSKk9e1kvsKEquW7L6Mo`
 - Community mint: `MNDEFzGvMt87ueuHvVU9VcTqsAP5b3fTGPsHuuPA5ey`
- SPL Gov program: `GovMaiHfpVPw8BAM1mbdzgmSZYDw2tdP32J2fapoQoYs`
 - Voter Stake Registry plugin: `VoteMBhDCqGLRgYpp9o7DGyq81KNmwjXQRAHStjtJSS`

The Realm is configured to have council and community side. Currently only council voting power is configured to be used in governances. Upcoming changes introduces community to get power over some of the governances.

The Realm is configured to use Voter Stage Registry plugin (VSR) to manage voter weight of the community side of the Realm.

SPL Governance program is self upgradable managed by a governance. The Realm manages the upgrade authority of the VSR plugin. Upgrade authority of other Marinade programs (<https://app.realms.today/dao/MNDE/assets>) are managed by the Realm as well.

The governance `8z6A4qSfL9FFvwX12zqt6HrbzaWthGUqBe4czCn9iXtq` is meant to manage the MNDE token treasury.

The governances `CnPBhNLpwPDY5rw8Wa8bt8DCKRNJ2GoGVf9xb7VYNrRr` and `M5Fg6GipNvPzWgXNr5wj1EDcp8GB9J53cgyE7YGYLbL` are used as admin authorities of various Marinade programs.

Upcoming community configuration

1. VSR Mint Config for MNDE mint

- `baseline_vote_weight_scaled_factor = 0` : no voting power when **not** locked up
- `lockup_saturation_secs = 2_592_000` : locked for 30 days to get full voting power
- `max_extra_lockup_vote_weight_scaled_factor = 1_000_000_000` : full weight of 1 token == 1 vote when max lockup time is applied, the config parameter is in 1e9
- `digit_shift = 0`
- `grant_authority = 8z6A4qSfL9FFvwX12zqt6HrbzaWthGUqBe4czCn9iXtq` (mainnet governance of MNDE treasury) .

2. Governance for Opinion voting (text only votes)

- `voting base time` - `3 days (259200 seconds)`
- `min community tokens to create proposal` - `200_000 MNDE`
- `min council tokens to create proposal` - `Disabled`
- `vote threshold community` - `2%`
- `vote threshold council` - `Disabled`
- `veto threshold community` - `Disabled`
- `veto threshold council` - `Disabled`
- `vote tipping council/community` - `Disabled`
- `min instruction hold up time` - `0`
- `voting cool off time` - `1 day (86400 seconds)`
- `deposit exempt proposal count` - `0`

3. Configure MNDE treasury governance to work with community (disabling council completely)

- `voting base time` - `3 day (259200 seconds)`
- `min community tokens to create proposal` - `200_000 MNDE`
- `min council tokens to create proposal` - `Disabled`
- `vote threshold community` - `2%`
- `vote threshold council` - `Disabled`

- `veto threshold community` - `Disabled`
- `veto threshold council` - `Disabled`
- `vote tipping council/community` - `Disabled`
- `min instruction hold up time` - `0`
- `voting cool off time` - `1 day (86400 seconds)`
- `deposit exempt proposal count` - `0`

4. Program upgrade authority of SPL Governance program itself to be managed by community

- `voting base time` - `3 day (259200 seconds)`
- `min community tokens to create proposal` - `1_000_000 MNDE`
- `min council tokens to create proposal` - `Disabled`
- `vote threshold community` - `2%`
- `vote threshold council` - `Disabled`
- `veto threshold community` - `Disabled`
- `veto threshold council` - `Disabled`
- `vote tipping council/community` - `Disabled`
- `min instruction hold up time` - `0`
- `voting cool off time` - `1 day (86400 seconds)`
- `deposit exempt proposal count` - `0`
